

DPW REPORT FOR THE MONTH OF JANUARY 2016

- Sanded and plowed snow from streets and lots and plowed snow from sidewalks as needed.
- Did water, sanitary sewer and storm sewer locates as needed.
- Cleaned off tops of Storm Sewer Catch Basins as needed.
- Started doing backflow testing in the town. Backflow testing will be conducted in the earlier part of the year instead of the latter part of the year moving forward.
- J&J Equipment in Syracuse has started to refurbish the Street Sweeper Vac Com.
- Made arrangements to get floater assembly for front plow installed on the new Wacker Loader (sidewalk plow) as it was not put on when we received the machine.
- Sold the 1994 Trackless with attachments on RTI Net Auctions January Net Auction. Equipment was sold for \$7,501.00
- Finished replacing piping and parts to chlorine and fluoride pumps at the water well houses.
- Put reflective material on sides and back of Bucket Truck.
- Continued picking up Christmas trees that have been put out in subways by area residents.
- Started remodeling the PD area of the Municipal Building and added an Office area for the Mayor. Work is being performed by PD and DPW Staff under the direction of Sgt. McGraw.
- Ordered more salt and hauled sand to be mixed with salt for road surface treatment during the winter months.
- Mixed sand and salt for road surface treatment during the winter months.
- Sewer Specialties' arrived in town and started putting the camera in various sewer lines per the Engineering Planning Grant (EPG) project that was planned last year. Found some areas that required some heavy cleaning so project is going slower than planned. Will have better report on project next month but are not finding any major infiltration areas occurring in the main sewer lines at this time.
